

WE MAKE IDEAS A REALITY

DIREKT

LAMINAT

Direktlaminat offers excellence
in the field of laminate-based
components and interiors.

RIGHT ANGLES OR ROUNDED CORNERS?

Flexibility and specialization
results in customer satisfaction

Just as our name suggests, we specialize in direct pressure laminate (Melamine Faced Boards) and laminate.

Our competent staff turns ideas and laminated panels into attractive furniture and functional furnishing solutions. Our versatile range of colours, decors, surface structures, wood based panels, and the possibilities our manufacturing offers, inspire customers in various industries. We use modern machinery equipped with diamond tools for the best finish and maximum flexibility in terms of both shape and size.

You will find us in Hjortsberga, not far from Alvesta and Växjö, in the heart of Småland. We produce our furniture and fittings in-house. This is appreciated by our customers because delivery times are shortened, there is less chance of communication problems and the environmental burden is decreased. Our quality and environmentally certified production is free from solvents and environmentally damaging emissions.

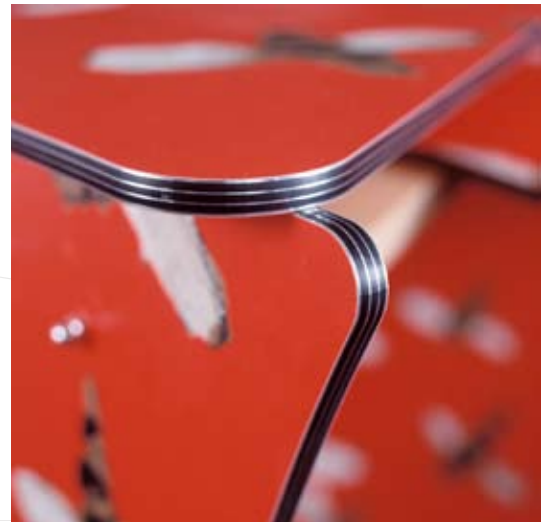

INTEGRITY AND SOLUTIONS

From idea to finished product

We help you throughout the process, from idea to finished product. Our thorough knowledge of materials, design and the best production process, guarantees customer satisfaction. Direktlaminat's designers change ideas into drawings, which are then transferred to our CNC machines and converted into furniture components

Our assembly team turns the furniture components, screws and fasteners into finished pieces of furniture, which are then delivered to the client assembled or flat packed.

“Being our
customer’s favourite
supplier requires
that we constantly
have an edge, but
still remain modest.”

Per Gunnarsson, CEO

"Quality not only means producing good products, but also providing a good experience for the customer"

Ulf Magnusson,
Production Manager

POSSIBILITIES AND FREEDOM OF CHOICE

Do it yourself or buy ready-made components

Material

If you want to do it yourself, we offer panels of different materials and edge banding from stock, ready for use.

Panels of different material –

Sawn to specification or whole panels

Chipboard, MDF, HDF, Combiline, Euro Light - lightweight panels, compact laminate

Surface materials

Direct Pressure Laminate (melamine faced boards), laminate, finish foil

Edge Banding

Polypropylene, ABS, melamine

Blinds

Laminate, finish foil

Components

If you want us to do the job, We offer components in different processing stages, from the simplest edge banding to the complete furniture component.

In addition, you can choose whether to pack on a pallet, pack each component separately or assemble the components yourself. It is also possible for us to send the goods directly to your customer.

Table Tops

Shelves

Furniture Components

"When comparing prices, it is important to consider the big picture"

Customer

BIG AND SMALL

Security and continuity

We work closely with some of the leading and most influential material suppliers. Our long-term cooperation with these suppliers has given us comprehensive knowledge of their range, quality and abilities, both in theory and in practice. We can therefore deliver small amounts without excessive freight and bulk or large amounts with prices based on volume. We also stock the most frequently sold products in Hjortsberga.

The sustainability provides our clients with a range of benefits.

- Security
- Continuity
- Quality
- Possibility for add-ons
- Small amounts
- Stock
- Price

QUALITY AND ENVIRONMENT

Our responsibility to future generations

Our work and use of materials reflects concern for the natural environment, and we focus on performing safe and resource-saving production. Our raw materials have little or no effect on the environment and it requires no surface treatment. We have chosen to use the railway for most of our shipments. Our quality and environmental management is certified according to ISO 9001 and ISO 14001.
